ON 'CHANGE.
 First Ring..... 243.00
 Second Ring..... 244.00

There was less political pressure on the market to-day, and the Ento-Riano, which was so much talked of yesterday, was to-day forgotten. To-morrow the last day of the month, the chief news this morning was closing up accounts. Owing to the severe fluctuations in some very heavy deliveries have to meet; gold will be delivered to-morrow at high as 318 and as low as 233. For the most part, those who have to receive dear gold are well able to pay for it, and the losses will not affect the Bolsas. To-day the tone of the gold market was different from that of yesterday, as the price of gold is just rising.

In spite of this being settling up day gold operations at the first hour embraced a trifle over three-quarter million. The demand for cash at the time was so stiff that the rate soon ran up 244 to 244.50, but the supply was abundant, and at the close there were selling rates around 243.50; the same rates ruling to-morrow, all brokers, although opinion that gold has still to be bought for liquidation, premise a fourth in the rates. For end of May business was done, the quotation

at 246.50, fluctuating between 244 and 247, and closing at the opening rate. The market for the new crop of cotton is reported improved and firmer, all the buyers being well supplied. The market opened weakish; many parties apprehending a decline for the settlement sold out yesterday, expecting to buy cheaper to-day, but they were disappointed. Prices were well maintained. The market for Bank Shares opened at 141, dropping to 139.50, and closed in demand at 144. The market for the new crop of cotton followed suit, opening at 246.50, and closing at 39.50; Constructors in from 33 to 35.50, and the Bolsa Bar 42.50 to 43. Cuducul were well after, all the series advancing.

The following is a summary of transactions effected this afternoon during the day:

first ring:—	
Gold—	
For cash	\$378,800 at 244.25
	243.50
April 30th	295,000 at 244.25

April 30th P	26,000 at 61-61

This was not a pleasant day for
 sengers to go off to the Atlatz
 cleared up the afternoon
 who went off in the morning
 through. It is a pity that the

steamers do not enter the dock, where there are all conveniences for passengers embarking. We suppose the channel is the great difficulty. The Government ought to use every means to keep the channel free, or otherwise the grand docks will always remain empty.

The rise of Cedula in London on Saturday is remarkable, and points to new revenue from the Plate. The war, however, has taken a large consignment of Cedula for the London market.

Many parties complained to-day of the great scarcity of paper money. We are inclined to think that the increased demand for paper money is due to the month's liquidation of the Bolsa.

The National Bank has reduced the discount, charging now on bills 7 per cent or more amortization 7 per cent; with less than 25 per cent amortization 8 per cent.

This is an all round reduction which will be heartily welcomed in the market. The change comes into effect from 1st May.

The engineers named to draw the plans and estimate for a bridge at Rio Negro in front of Patagonia reported to the Board of Public Works that their task is almost completed. The great depth of the river and the conditions will have to be unusually severe. The bridge will have a total span of 400 metres. The local authorities have done all in their power to facilitate the work.

Mr. T. Clarke, of Manchester, is

According to late telegrams from National A Cedula, which were of Hamburg at 37 op, have jumped to a stiff rise in such a short time. Plate wheat is firm and in demand at Liverpool, Antwerp and Paris, but has dropped in price and looks weak. Plate frozen wethers are also duller. Rio advices announce a bank paper on London at 90 days 20 1/2.

With regard to the meeting of shareholders of the Compañía General de Cables, which took place on Saturday (12) during the course of the proceedings, Gervasio Videla Dorna, speaking for himself and a large number of shareholders, announced his intention of protesting against several transactions effected by the company, with a view to taking legal proceedings. The transactions impugned were those connected with the purchase of lands in La Plata, the December and subsequent balance sheets, distribution of dividends, purchase and sale of company's shares, luxury in the workshop, and so forth.

Passengers sailed per s.s. *Orinoco* for Liverpool:—Mr J. P. Caldwell, Mr S. Johnston, wife and Mr C Martindale, Mr S. Loader, Mr Cordner, children and maid; Mr Burrows, Mr J. Walton, Mr S. A Popper, Mr R. G. D. Smith, Mr
